Freezing Level*	1700m	1600m	1700m	2100m	2300m	2200m	2300m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Strong sunshine is expected with little cloud cover. A chilly start but feeling very warm by mid afternoon.

Forecast for Tuesday 21 Jun 2022

Weather: Remaining dry with clear spells overnight but increasing cloud spreads south during the morning with the chance of some light patchy rain, southern fells may remain dry for the whole day with sunny spells.

Maximum wind: Southwesterly 10-15mph.

Chance of cloud-free hill tops above 800m: 100% falling to 70%, some lower cloud likely to affect more northern fells during the afternoon.

Low cloud and visibility: Scattered low cloud will form around the summits in the north in the afternoon above 600m, quite patchy further south and more southern fells may well keep clear summits. Very good visibility in the morning but turning hazy or poor in patchy afternoon rain in the north.

Temperature: **Valleys:** Plus 12 rising to 18 Celsius.
At 800m: Plus 7 rising to 13 Celsius.
Freezing level: Above summits.
